

FOLIO BOX \$2900

This is the most beautiful and practical product I've seen in my industry in over 20 years - meet the Folio Box.

Hand-made in Italy, this free standing box looks like a frame, but holds 20 of your favourite images classically matted in 11"x14" mounts. Simply stack the deck to enjoy each of your images on rotation year after year.

Crafted from the highest quality full-grain distressed Italian leather, the Folio Box is designed for style & endurance. Weighted perfectly to display either horizontally or vertically, with magnetic closing plexi-glass inlay lid - fully archival & acid-free to enjoy for generations to come.

Includes same 20 images as printable & social media sized digital files - add your Complete Digital Collection for only \$700.
